

BEER TASTING EXPERIENCE

Dive deep into the world of craft beer with a fun and informative session of beer tasting accompanied by an interesting excursion into the history of beer, production methods, the craft beer revolution and an exploration of the different beer styles.

Our beer guru, Robert, will accompany you in your journey through a jungle of hops, malts and grains.

We offer two different packages, the standard package comes with 9 different beer while the premium package – for hardcore beer-heads – offers 12 beers. Each beer pour is a taster size of around 150ml (half a regular bottle) to allow you to tryout as many beers as possible. Free-flowing bar snacks are included in the packages.

This experience is ideal for team-building events, get-togethers, corporate activities or just as a fun thing to do with friends. We designed this experience to be enjoyed by all, from beer newbies to seasoned enthusiasts.

It's an activity that can be held almost anywhere, at your home, office or garden party. We just need access to refrigeration, water supply, good light and if you can supply a projector we can also show some cool slides to accompany the session. We'll supply the glassware.

If you wish you can also add yummy cheese/charc platters or grazing tables to your experience for an additional fee, to keep the party going longer. Get in touch for personalised offerings and quotes.

Minimum amount of people for the experience is ten or you can pay for ten if you're a smaller group. This experience last 2-3 hours.

Get in touch on hello@popp.mt or call 7787 8787 for more info or to book :)
